SOMETHING UNIQUE..

Introducing Sudachi, a unique citrus fruit that's not typically eaten off the tree, but rather used as a flavouring in place of lemon or lime. Sudachi is considered an indispensable companion to certain dishes in Japan, where it's served in thin slices as a garnish.

If you're looking to add a twist to your menu creations, Sudachi's flavour and zest are the perfect starting point. Originating in Japan, the Sudachi is a cross between a Yuzu and another Japanese citrus like a Koji or Tachibana orange.
